

Mayo Clinic ImageShare

ImageShare is a quick way to upload and share medical images.

Preferred Browser

The preferred browser is Google Chrome. If you want to use Internet Explorer 7, 8 or 9, Safari, or Firefox, you will need to install the Java plug-in to upload images. The DG application will recognize the browser you are using and guide you through the Java installation process. The plug-in should only take one minute to install.

Go to: https://mcie.ambrahealth.com/share/mayo_clinic_rst

Enter your email address and click 'Continue'.

Returning users will be prompted to enter their password.

First time users will be prompted to enter their First Name, Last Name, and a password. First time users are also required to accept the Terms and Conditions and the HIPAA Agreement.

Then click 'Continue'.

Select the disc that contains your medical image files.

A scan process will produce a list of qualifying medical images.

Select the images that you want to upload.

Enter an optional message.

Check the authorization box.

Click "Upload and Share Selected Studies".

If you need help
